

TOTAL SECURITY SOLUTIONS

PROFILE

The Managing Director of Omega Security Consultants Pvt.Ltd has behind him 20 years at the helm of affairs in the field of Security. The major part of these years was spent heading the Security departments of some of the most reputed hotels chains such as the Kempinski Hotel - UAE, JW Marriot-UAE, Grand Hyatt, Welcomgroup Maurya Sheraton, Park Royal, Imperial Hotel, Vasant Hotel etc.

Since hotels require security that is highly effective but unobtrusive. The Director of Omega exploited his expertise in audio & video technology and pioneered the use of electronics in security for the hospitality industry in India on an extensive scale when a project of Rs. 27 lakhs was undertaken for the Park Royal hotel New Delhi. To date the Park Royal can boast of having the best CCTV system in the hotel industry. Apart from India work has been undertaken in the U.A.E in reputed five star deluxe hotels such as the Ajman Kempinski Dubai.

Omega has also become the pioneer in the field of video satellite transmission. HFCL Satellite one of the most reputed satellite transmission company is now engaged in remote video transmission and is monitoring establishment in U.P with equipment provided by Omega Security Consultants.

‘The combination of ground realities and the knowledge of electronics in security has enabled Omega Consultants to deal in a wide array of electronic systems ranging from CCTVs, Access control, Intrusion detection to Technical Surveillance Counter Measures.

Omega Security Consultants Pvt. Ltd is also in detective and investigation work related to crime, economic offences, cheating, fraud, security, fire and safety. Last but not the least we are also engaged in training security manpower in various aspects of industrial, commercial and domestic security. Apart from imparting training we engage in bringing out foolproof systems and procedures ranging from security and safety to fire fighting rescue and evacuation.

In short Omega Security Consultants Pvt. Ltd are the solution to all your security requirements.

We believe in winning over the internal customer with our friendly and professional attitude. The end result being overall security consciousness leading to a high level of loss prevention.

TOTAL SECURITY SOLUTIONS

GUARDING SERVICES cont.

We provide a highly efficient security force by carefully selecting the manpower and exposing them to an extensive training program.

Our training ranges from grooming and telephone etiquette to anti-sabotage, anti-terrorist measures, VVIP Security, Close protection security, customer handling, Intelligence gathering, investigation techniques etc. Training is an integral part of our organization. Apart from the extensive initial training imparted to our staff we carry out regular refresher courses from time to time to keep our staff abreast of the latest in the field of security.

We have a team of highly qualified field officers who will take regular rounds of your establishment to ensure nothing is lacking. Discipline, turnout and performance will be constantly monitored. They will also identify any likely projected happenings that could affect the safety and security of the organization and make timely recommendations.

Our distinguishing feature is our rapport with our clients. Regular meetings and briefings with the management is our key to providing efficient security.

Apart from Guarding services we are also System Integrators dealing in state-of-the-art electronic security systems. It is therefore imperative that we are in a position to train our guarding force in the field of electronics for security. They are well trained to handle Access control equipment, Intrusion detection equipment, CCTV and wireless equipment.

If our clients are in need of high-grade security systems we are in a position to provide solutions to all kinds of security requirements. If security equipment is to be out-sourced, we will be happy to give expert advice on system selection, integration and location, at reasonable cost.

TOTAL SECURITY SOLUTIONS

**WE PROVIDE TAILOR-MADE ELECTRONIC SYSTEMS
FOR SURVEILLANCE, INTRUSION DETECTION AND
ACCESS-CONTROL**

SURVEILLANCE:

We deal in surveillance equipment for

SECURITY

SAFETY

SUPERVISORY FUNCTION

ADMINISTRATIVE CONTROL

TOTAL SECURITY SOLUTIONS

Closed Circuit TV: Though primarily used in the field of security, reduced production costs now bring CCTV into the realm of business houses and ordinary homes.

CCTV enables cost-effective supervision leading to enhanced productivity and quality management. Widely used in hospitals, nursing homes, research centers, schools, colleges, crèches and schools for the mentally challenged.

Industries are increasingly installing CCTV to monitor production lines, workshops, and for monitoring automated work in hazardous areas. Wholesale and retail outlets, clubs and sports centers. The list is endless, from high security zones to wards for new-born babies, the sick and the elderly.

TOTAL SECURITY SOLUTIONS

Remote Video Surveillance: Remote video surveillance or dial in video brings your office, factory, operation theatres, hotels etc within your view from the comfort of your bedroom via your p.c or laptop. Restaurant chains can be monitored from a central point and operation theatres can be viewed by specialist from their homes. Factory owners can monitor operation any time of day or night from their homes. Its usage is limited only by ones imagination.

INTRUSION DETECTION:

In order to stay one step ahead of the criminal we cannot afford to rely on the human element alone. It is necessary to have the right blend of resources i.e. human and electronic security systems. The key to effective security to have a good guarding force augmented with a good intrusion detection system designed to cater to the threat perception. Proper equipment and its strategic location will ensure foolproof security. The age-old saying “right tool for the right job” is so apt in the field of electronic security. As System Integrators we provide you with the right solution for all your problems.

TOTAL SECURITY SOLUTIONS

ACCESS CONTROL:

The aim of security is not to block access altogether. Effective security allows unhindered access for authorized personnel while denying access to intruders. Intelligent Access control system go a step further by assigning different levels of security combined with time, attendance and biometrics. With the advent of biometrics, unique human features such as voice identification, finger and retina print identification etc. have been integrated into latest access control systems.

TECHNICAL SURVEILLANCE COUNTER MEASURES

TSCM or Technical Surveillance Counter Measures is a term familiar to professionals engaged in High Tech Security such as VVIP Security, Military and Sensitive R&D Centers.

Sweep Jammers:

We provide a wide variety of high tech equipments such as Vehicle mounted Jammers for neutralizing remote controlled Improvised explosive devises, Jammers for anti-surveillance application, Jammers for anti laser surveillance applications, Building Jammers for GSM frequencies, anti surveillance room shielding etc.

Our Jammers employ the latest Sweep Jamming technology. Technology which enables the entire power output to be used for jamming every single frequency in the desired band-width. High power jamming in the entire frequency spectrum is now possible with sweep jamming, something unsurpassed by conventional barrage jammers.

TOTAL SECURITY SOLUTIONS

Debugging:

We also carry out debugging to ensure secure communications, to detect and counter industrial espionage. We use the latest techniques using detection by non-linear junction detectors.

Metal detectors:

We deal in all types of metal detectors. Ranging from hand held detectors for security purpose and industrial security to door-frame metal detectors and deep search mine detectors.

Our detectors meet stringent standards and come in a wide variety. Detectors with variable sensitivity interfaced with beam detectors for security application to detectors interfaced with beam detectors to negate false alarms.
